

An aerial photograph of a city, likely New York City, showing a dense urban landscape. Many buildings have green roofs, and there are trees interspersed among the structures. The image is used as a background for the symposium title and the main text block.

FORDHAM ENVIRONMENTAL LAW REVIEW

2021 SYMPOSIUM

THURSDAY, MARCH 4

URBAN CLIMATE CHANGE AND THE LAW

Climate change and the adversity it heralds affect all of Earth's people differently, both in substance and degree. Those located in urban environments are particularly vulnerable to its wrath. Some, however, are uniquely situated to adapt and mitigate.
